(Changed from Earth Day event on Wednesday, April 22 due to Golf Tournament)
 - Campus-wide event for students, staff, & faculty, drop-in schedule
 - Decide on light refreshments and finalize time schedule at the next mtg.
 - Bret to find out if Frank Chyz (a.k.a. Recycle Man) would bring some of his Clear Stream recycling frames
 - Activities discussed:
 - Christine Klahn – biodiesel presentation
 - Lori Clovis – carbon footprint computer quiz; survey provided by one of her classes
 - Music on trail
 - Frank Chyz – county recycling program
 - Student posters
 - General cleanup – we'll need gloves and trash bags; Lee to ask if we can have some trash bags from maintenance
 - ✂ Prizes – reusable shopping bags, CFL bulbs, flowers, etc. – anyone to provide
 - Planting flowers/greenery & removing yellow markers – will be done by Campus Life at another time – too involved for a campus-wide project; suggestions included:
 - West end of Physical Education Bldg, near the Cosmetology area this time; only one area each semester, so that it's not too costly and overwhelming
 - Mulch along building
 - Set flowers near stairs to parking lot; Cindy will ask Stephen and Rick about the flowers when it's time to do this project
 - Ask maintenance to replace timbers
 - Paint the rail
 - Discussion about recycling; many questions raised, especially regarding students helping; Noelle will e-mail the Taskforce to see who is interested in forming a subcommittee; we can request to hold roundtable discussions to see if there is interest in this initiative to be a campus-wide effort
 - Robin will ask Jeff McEntire to update the Campus Life GroupWise list
