

COVID-19 UPDATE

AUGUST 26, 2020

New Positive Cases this week

- Employee – 0
- Student – 2

Total Positive Cases since March 23, 2020

- Employee - 3
- Student – 3

It is important to note that we do not believe any of these cases were contracted here on campus and were not related in any way.

When a case is reported, the county health department will conduct contact tracing to determine who needs to be informed of potential exposure. The health department will contact those individuals, as well as the ICC Director of Human Resources. ICC will also reach out to the individual to conduct contact tracing specifically for the campus community. If there is a concern that an individual has been exposed, they will be contacted directly. Should you have specific questions regarding the college CoVid-19 response plan, you may go to <https://www.isothermal.edu/coronavirus/index.html> or call 828-395-1294.

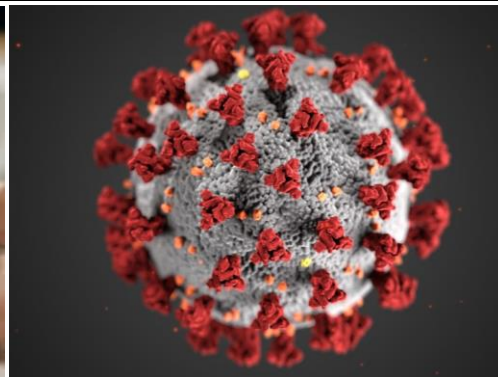

Self –Reporting Form

<https://www.isothermal.edu/coronavirus/index.html>

Please complete this form if you:

- are symptomatic
- are being tested for CoVid-19
- are concerned you have been exposed

A college representative will contact you to discuss your next steps.

What is exposure?

The CDC states that exposure is being in contact with someone within 6 feet, without wearing a mask, for longer than 15 minutes.

Wearing a mask and social distancing is your best option to reduce the risk of being exposed to CoVid-19.

Need help?

We recognize this is a stressful time. Those having difficulty coping with stress related to CoVid-19 are encouraged to contact:

Employee/Student
Assistant Program
800-633-3353.
