Isothermal Community College offers most courses in an 8-week format. The fall and spring semesters include an 8-week Term 1 and an 8-week Term 2. Additionally, most summer courses will be offered during an 8-week term, although there may be some slightly longer 10-week courses.

We offer courses in an 8-week format because our data shows that this format provides several benefits to students that lead to better success in individual classes and with program completion. Major differences between 16-week and 8-week courses include:

16 WEEK

• 12-18 credit hours per semester (on average)
• Complete 4-5 courses at a time
• Focus on 4-5 sets of assignments
• Communicate with 4-5 instructors at a time

8 WEEK

• 6-9 credit hours per 8-week term (on average)
• Complete 2-3 courses at a time
• Focus on 2-3 sets of assignments
• Communicate with 2-3 instructors at a time
Are all courses offered in 8-week terms?
Most courses are offered in 8-week terms, but some programs and courses are in a 16-week format due to high contact hours.

Why does Isothermal offer 8-week terms?
Research demonstrates that 8-week terms improve student learning. Taking fewer classes at a time allows you to focus more intensely on the course material, making you more likely to remember the material longer.

What is the delivery format of 8-week classes?
Eight-week classes are offered in all delivery formats: in-person, in-person combined with online, and completely online.

Do 8-week terms mean I can finish my degree faster?
Eight-week terms may make it possible to complete a degree faster, particularly if you intend to enroll part-time. However, to get the most benefit from the compressed timeframe, you should take approximately half the number of credits each 8-week term that you would have taken in a semester.
Are 8-week classes harder?
It may seem that way at first because you will be completing the same course more quickly than you may be used to. However, it is important to remember you should only be taking half the number of credits at any given time, so your overall workload per term will be comparable to a semester.

What is considered full-time for financial aid?
Traditionally, enrolling in 12 or more credits had been considered full-time for financial aid purposes. As of 2024-2025, federal aid is calculated according to the number of credits enrolled rather than a full-time or part-time status.

How many courses do I have to take to complete an associate degree in two years?
If you average two 3-credit courses per 8-week term, you will need to take a couple of courses in the summer to complete a degree in two years. Alternatively, you could take one additional course in two of your 8-week terms. Be sure to talk to your College Navigator and Faculty Mentor about the best approach to building your course schedule to reach your goals.

What if I am taking science courses that have labs?
You might have a class with higher “contact hours” per week than the listed credit hours because of a lab component. The number of contact hours tells you how much time you can expect to spend either in the classroom/lab or working online in addition to reading and homework. If you are taking one of these courses, talk to your College Navigator and Faculty Mentor about whether it would be best for you to take only that course in one 8-week term. If you take a second course, select it carefully, keeping your total number of contact hours in mind.

How does the registration process work?
You will always meet with your College Navigator or Faculty Mentor to plan a 16-week semester. However, you will break down your classes into two sets: one set for Term 1 and one set for Term 2.
If I drop a course in the first 8 weeks, can I take it in the second 8 weeks?
Yes, if it is offered, which is another advantage of 8-week terms. Isothermal plans class schedules a year at a time, so when you register for the fall semester, you will be able to see what will be offered in the spring semester too. Please contact the Financial Aid Office to ask how adjusting your schedule will impact your aid.

How is my financial aid affected?
You will register for all courses (8-week and 16-week) at the start of the semester. To secure your courses, be sure your financial aid is complete.

If you are a new or returning student after the full-term census and you register for Term 2 courses, you may still qualify for financial aid by filing your FAFSA. Come by Student Services for one-on-one assistance. We are glad to help you secure your financial aid!

The full-term census is the 10% point of the semester. These dates can be found on the Academic Calendar at events.isothermal.edu.

When do I pay tuition and fees?
Charges are placed on your account when you register for your course(s). Payment for tuition and fees is due at the end of each registration period. Aid that is available on your account will apply to those charges.

When will I get my refund?
Any remaining financial aid funds are disbursed after the census dates for Term 1 and Term 2. Important details and scenarios are included in the What Your Financial Aid Check Disbursement Might Look Like section on pages 11 and 12.

Be sure to log into your Patriot Port account for direct deposit information. Pell disbursement dates can be found on the Academic Calendar at events.isothermal.edu.
Jason is earning an Associate in Arts Degree. Their schedule could look like the following:

**Term 1**
- ENG 111 Writing & Inquiry 3 credits
- CIS 110 Introduction to Computers 3 credits
- ACA 122 College Transfer Success 1 credit
  
  **7 total credit hours**

**Term 2**
- ENG 112 Writing/Research in the Disc 3 credits
- MAT 152 Statistical Methods I 4 credits

  **7 total credit hours**

**Total 14 credit hours in semester**
If Jason wants to complete in two years, they should take at least one additional course per year. They could take courses in the summer.

*Program Total Required for Graduation with AA degree: 60-61*
Juanita is earning an Associate in Science Degree. Her schedule could look like the following:

**Term 1**
- ENG 111 Writing & Inquiry: 3 credits
- MAT 171 Precalculus Algebra: 4 credits
- ACA 122 College Transfer Success: 1 credit
  
  **Total 8 total credit hours**

**Term 2**
- ENG 112 Writing/Research in the Disc: 3 credits
- MAT 172 Precalculus Trigonometry: 4 credit hours
  
  **Total 7 total credit hours**

**Total 15 credit hours in semester**

If Juanita wants to complete in two years, she should take one additional course per year. She could take the courses in the summer.

*Program Total Required for Graduation with AS degree: 60-61*
Tyler is working on his Associate in Applied Science in Criminal Justice Technology. His schedule could look like the following:

**Term 1**
- ENG 111  Writing & Inquiry  3 credit hours
- CJC 111  Intro to Criminal Justice  3 credit hours
- ACA 122  College Transfer Success  1 credit
  
  **7 total credit hours**

**Term 2**
- CJC 132  Court Procedures and Evidence  3 credit hours
- CJC 141  Corrections  3 credit hours
  
  **6 total credit hours**

**Total 13 credit hours in semester**

If Tyler wants to complete in two years, he should take at least one additional course per year. He could take courses in the summer.

*Program Total Required for Graduation with AAS in Criminal Justice Degree: 70*
Madison is working on her Associate in Applied Science in Early Childhood Education: Career Track. Her schedule could look like the following:

<table>
<thead>
<tr>
<th>Term 1</th>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 111</td>
<td>Writing &amp; Inquiry</td>

**Total 14 credit hours in semester**

If Madison wants to complete in two years, she should take at least one additional course per year. She could take courses in the summer.

Program Total Required for Graduation with AAS in Early Childhood Degree: 65
Austin is working on his Associate in Applied Sciences in Welding Technology. His schedule could look like the following:

### Term 1
- **ACA 122** College Transfer Success  
  1 credit  
- **WLD 110** Cutting Processes  
  2 credit hours  
- **WLD 115** SMAW (stick) Plate  
  5 credit hours  
  **8 total credit hours**

### Term 2
- **WLD 116** SMAW (stick) Plate/Pipe  
  4 credit hours  
- **WOL 110** Basic Construction Skills  
  3 credit hours  
  **7 total credit hours**

**Total 15 credit hours in semester**

If Austin wants to complete in two years, he should take at least one additional course per year. He could take courses in the summer.

*Program Total Required for Graduation with AAS in Welding Technology Degree: 70*
Sebastian is working on his Associate in Applied Science in Information Technology Cybersecurity Degree. His schedule could look like the following:

### Term 1
- **ENG 111**  Writing & Inquiry  3 credit hours
- **SEC 110**  Security Concepts  3 credit hours
- **ACA 122**  College Transfer Success  1 credit

7 total credit hours

### Term 2
- **CIS 115**  Intro to Prog & Logic  3 credit hours
- **CTI 120**  Network & Sec Foundation  3 credit hours

6 total credit hours

**Total 13 credit hours in semester**

If Sebastian wants to complete in two years, he should take at least one additional course per year. He could take courses in the summer.

*Program Total Required for Graduation with AAS in Cybersecurity Specialty: 67*
What Your Financial Aid Check Disbursement Might Look Like

Are you planning your finances for the semester? Let’s plan together. Here are a few financial aid scenarios. To see your award amount, please log into your Patriot Port account or visit the Financial Aid Office in the Student Center Building.

To view the price of books/required materials, visit the College Bookstore in the Student Center Building or online at https://bookstore.isothermal.edu. Remember, the bookstore will allow you to charge purchases against your financial aid award for Term 1 and Term 2 during specified dates. Check the bookstore’s webpage for those dates.

Financial aid is calculated at the census date of the course; therefore, there are multiple check disbursements throughout the semester. Please see the College’s calendar for those dates. Check your Patriot Port account for direct deposit information.

Scenario 1:
- Enrolled in 12 credits over 2 terms
- All books/required materials are purchased at the beginning of the semester
- This student’s aid for the semester: $3448
  (this amount will vary by student)

<table>
<thead>
<tr>
<th></th>
<th>Term 1</th>
<th>Term 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aid Awarded for Semester</td>
<td>$1,724</td>
<td>$1,724</td>
</tr>
<tr>
<td>Tuition/Fees for 12 Credits</td>
<td>-$1,015</td>
<td>$    -</td>
</tr>
<tr>
<td>Books/Required Materials</td>
<td>-$600</td>
<td>$    -</td>
</tr>
<tr>
<td>Estimated Refund</td>
<td>$109</td>
<td>$1,724</td>
</tr>
</tbody>
</table>

These are scenarios. To see your award amount, please log into your Patriot Port account or visit the Financial Aid Office in the Student Center Building.
Scenario 2:
- Enrolled in 12 credits over 2 terms
- Books/required materials are purchased at the beginning of each term
- This student’s aid for the semester: $2950
  *(this amount will vary by student)*

<table>
<thead>
<tr>
<th></th>
<th>Term 1 (6 Credits)</th>
<th>Term 2 (6 Credits)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aid for Semester</td>
<td>$1,475</td>
<td>$1,475</td>
</tr>
<tr>
<td>Tuition/Fees for 12 Credits</td>
<td>-$1,015</td>

</tr>
<tr>
<td>Books/Required Materials</td>
<td>-$300</td>
<td>-$300</td>
</tr>
<tr>
<td>Estimated Refund</td>
<td>$160</td>
<td>$1,175</td>
</tr>
</tbody>
</table>

Scenario 3:
- Enrolled in 6 credits after the semester census date for Term 2 only
- Books/required materials are purchased at the beginning of Term 2
- The student’s aid for the semester: $1724
  *(this amount will vary by student)*

<table>
<thead>
<tr>
