

# Catastrophic Event Policy

Isothermal Community College defines a catastrophic event as any incident or event that disrupts the College's ability to continue to safely maintain instruction and operations for an extended period of time. In the event of a catastrophic event occurrence, Isothermal Community College will communicate promptly and clearly with students as it works to implement steps to support the continuity of student learning as defined by guidance provided in North Carolina Community College System Code 1B SBCCC 200.99 and Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) guidance on Closing a Program, Site, Branch, or Institution.
