

Collection Development Policy & Procedures

The Director of Library Services shall have authority to create and amend procedures regarding the development of the library's collections; that is, the acquisition, management, deselection, and disposition of information sources and materials in a variety of formats that support the Library's mission to provide "access to collections, services, facilities, and other resources that enhance and promote the learning process and support the general reading interests of the members of the College community," in accordance with existing governing policies, rules, and laws.
