

# Evaluations

## I. Employee Development Plans and Evaluations

An employee development and evaluation process has been established to ensure relevant feedback between employees and the irrespective supervisors. This evaluation procedure is designed and intended to offer suggestions for improvement and develop strategies for the attainment of specific goals or the revision of related processes.

All employees will be evaluated annually to address the performance of the employee and to develop strategies for professional development. Human Resources will be responsible for coordinating and monitoring the evaluation process and may implement a timeline for the evaluation process.

Evaluations and required performance improvement plans will be retained in the personnel file.

Supervisors may only use evaluation instruments that have been approved by the College. The President may use a different evaluation instrument and procedures when evaluating employees reporting directly to the President; however, these employees shall be evaluated annually.

In addition to the above, all faculty may be evaluated by students through course evaluations.
